Women in Data Science Conference to be held in Pune on 23rd March

Pune(Voice News Service)-> The Global Women in Data Science (WiDS) Conference was held with the aim to inspire and educate data scientists regardless of gender, and support women in the field.

The conference provided an opportunity to hear about the latest data sci-

ence related research and applications in a broad set of domains. WiDS Pune is conceptualized and spearheaded by Ms. Sucheta Dhere, ex-VP Vodafone India, who is also the primary license holder from Stanford University.

Dr Rohini Shrivastava, CTO of Microsoft, was the keynote speaker. She entered the field of Data Science pursuing her passion for Maths and understanding the immense impact Data Science can have to transform the world and reaching out to people in the world who have little or no

communication access with the rest of the world. She said that Data Science has become a part of our lives although one may not be aware of it. Using Data Science and developing features that will be useful for everyday applications in various sectors is getting more and more acceptance all over the world. This is creating an interesting world with aspects of Data Science applicable in various companies, commercial platforms and many more applications. The key highlights of this conference were live dem-

What People are Saying

Testimonials

Yesterday I got an opportunity to be a part of WiDS conference. Of all the conferences that I've attended, this one was special. It is an initiative of Stanford and was organised by Sucheta Dhere, a woman who truly believes that if we come together we can create something great and 'Data has no gender'. This entire event was paperless and had implemented many innovative things such as facial recognition for registration, live scribbling, Lego for understanding data science concepts and mood tracking, etc. All the speakers were extraordinary women who have aced their respective fields. Dr. Manasi was among my favourites who elaborated the application of AI in fashion. With brilliant panel discussion, the audience was given an insight on the use of AI in various sectors. Even the pre-conference events were based on unique topics. And thanks to the partners and volunteers, the whole event was very well-organised. I got a chance to meet amazing people and the whole experience introduced me to different ideas. I have great respect and admiration for the entire WiDS team. I felt inspired by Sucheta ma'am's words which I think everyone will agree with- "Sky is not the limit, imagination is."

-Leena Bhandari

Loved being a part of it all! Very well organised and can't wait for more events!

-Aaliyah Ahmed

Hi Sucheta. Thanks for organising WiDS conference at Pune. It was truly enriching experience. Learnt a lot from discussions, interactions & networking. I would like to be a part of WiDS core committee and contribute in every way possible. Could you guide me on how can I be part of WiDS committee?

-Dr. Ashwini Renavikar

Mood barometer, start of the day pattern indicates high excitement as we move through the day people where inspired. People were most inspired just before lunch that's where fashion /advt/ and cricket session happened

-Mood Barometer analysis

Today's session made me feel like rainbow of knowledge getting added to everyone's life - Enriching different domains and fuctions with different colors of AI capabilities ...

A perfect HOLI gift for the Women in Data Science!

I deeply thank you all WiDS team for making this opportunity to learn more about meaning n meeting all the great people who shared their experience which is really valuable.

I got a lot from it... great contacts, discussions and a deeper appreciation of Machine learning and Artificial Intelligence.

Thank you WiDS for including me.

Er Pratik Shendage

Doing something new and different requires a level of drive and passion that is really hard to fake. When your heart is behind what you are doing, so much is possible. Volunteered and Attended the WiDS-conference which aimed at inspiring and educating Data Scientists world Wide and supporting #WOMEN across this field.

The Conference very well highlighted the need and focus of Machine learning, Data Analytics and AI with their use cases in Democratizing AI, Fashion, Media Analytics, Predicting Scores for Cricket Matches, Text Analytics, Recommendation systems, Medicines and how we can carve our paths for contributing in this tech driven era.

#enlightened to meet amazing data scientists!!

Sucheta Dhere Great that our paths crossed!!

P.S: Best part was meeting @RASANA AMIT - BITSian- 2006 Batch , as a keynote panelist. #PROUDMOMENT

A big round of Applause Wids Pune 2019 for the mega event.

Sucheta Dhere and Team : Thanks For making me understand that IT IS THE BIGGER PICTURE THAT REALLY MATTERS.

-Manisha Khadge

It was a lovely experience. Thanks for inviting me for the talk, lets be in touch.
Thank you so much for the hospitality

-Shalini Chaturvedi

Thrilled to share about my participation as a panelist at #WiDSPune2019 – an initiative by Stanford University and organized by Sucheta Dhere. The event had many keynotes and panel discussions related to implementation of Data Science in various industry sectors. Got an opportunity to be a part of the Panel discussion – Data Science : A new Raw Material for businesses. It was an awesome experience to share the stage with other women experts in the data science field - Sanika Bhide Ph.D, Kalpa Ashhar, Gunjan Gupta, Alka Mohite, Manjiri Gokhale Joshi, Pooja Joshi. There were some very interesting discussions on Democratizing AI, Uses of AI in Live Cricket events & Media industry etc.. which were very thought provoking and gave invaluable insights into how data science is being used to maximize revenue, profits, social impact, entertainment to name a few outcomes. Overall a fantastic event which provided a truly enriching experience for all those looking for an exposure to Data Science.

-Monika Chourasia

At Wids Pune on 23 March. Keynote and Panel discussions were very insightful with eyeopeners on how AI and DS is impacting industry . Thanks Sucheta Dhere for hosting such a great event and having us as your partner. Helped us to showcase our Face recognition on edge technology for event registration . Our lovely team in pic that had all the fun together :)

-Nikhil Bhaskaran

Thank you Sucheta for all the efforts you have put in to make WiDS Pune meaningful.
Very well organized event! Great learning experience with you all. Thanks

-Anjali Rao

#Widspune #wids2019 Exciting sessions held under the Women in Data science Pune 2019 today wherein the talks ranged from having predictive models in predicting Cricket match outcomes, AI in Medical Sciences, Taste Buds, Uber, Microsoft AI, Advertising etc Crucial message is "Data has no gender" T shirts worn by all volunteers and most excited to see the LiVE Scribing done

-Aarti Rawat

#wids2019 Pune....Thank you Sucheta Dhere and WiDS Pune team for inviting me to participate as a panelist for discussion on Data Science: A new raw material for businesses. Amazing experience sharing the stage with other Women DS experts from BSFI Gunjan Gupta Contracts management Kalpa Ashhar Telecom Monika Chourasia and other domains Alka Mohite along with the adept moderator Manjiri Gokhale Joshi.

-Sanika Bhide

Great Work! Sucheta
